Offer on delivery of materials

Ukrainian manufacturer of modern paintwork LLC "Sioplast" for industrial applications offers cooperation on delivery of single-component acrylic coating AK-501 Г (TC U 24.31245841-002-2001). This coating is intended for the horizontal marking of trackway of roads of I and II category.

Coating AK-501 G is approved:

- by the test laboratory GP "DerzhdorNDI" (SR № 000922 as of 24.05.11);
- by DNTTS "DOR YAKIST" (No SV.ODS-044.042-12 as of 12.11.12);
- by certification authority "UkrSEPRO" (No UA 1.177.0018019-14 as of 27.03.14);
- by the sanitary-epidemiological service (No 05.03.02-04/23686 as of 04.04.14).

Also, production set of LLC "Sioplast" comprises a wide range of paintwork material, which is resistant to negative influence of alkali, acids, salts, water and other factors.

Production is exclusively made of the high-quality raw material, including well-known world concerns, for instance: Dow Chemical Company, SPOLCHEMIE, MITSUBISHI, and others.

Price «AK-501G» - (1,8 EUR/kg)

Delivery specifications: FCA - Inkoterms 2010.

Sincerely yours,

The Director of LLC "Sioplast"

Taranenko N.A
